## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-31, drawn to a mobile computing system, classified in class 434, subclass 350.
- II. Claims 32-35, drawn to a portable cart, classified in class 280, subclass 651.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as a cart that may be used to transport, operate or recharge any type of electronic equipment, not just computer equipment. For instance, the cart set forth in Group II could be used to transport audio equipment that contained rechargeable batteries, such that the equipment would arrive at its destination ready for use. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Joseph Curtain on January 27, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3714

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John L Sotomayor whose telephone number is 703-305-4558. The examiner can normally be reached on 6:30-4:00 M-F.
